Subject: Thrower Mobility Transportation Service Corp. Application for Three Nonemergency Vehicles

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the application of Thrower Mobility Transportation Service Corp. for three (3) Certificates of Public Convenience and Necessity to operate three (3) nonemergency vehicles.

Scope

These Certificates of Public Convenience and Necessity are countywide, allowing the certificate holder to operate in unincorporated and incorporated areas of Miami-Dade County.

Fiscal Impact/Funding Source

Licensing, operating permit and inspection fees are collected by the Department of Regulatory and Economic Resources to support regulatory activities. There is an annual regulatory fee of \$625 per certificate that will yield \$1,875 in revenue annually for the new certificates. Vehicle inspections are \$38 per vehicle.

Track Record/Monitor

Applicant is an existing permit holder of four (4) Certificates of Public Convenience and Necessity to provide nonemergency medical transportation. The applicant is in compliance with all requirements of the Code of Miami-Dade County (Code). Joe Mora, Division Director within the Department of Regulatory and Economic Resources, will be responsible for monitoring this company.

Background

On December 18, 1980, the Board adopted Ordinance 80-145, later codified in Chapter 4, Article III of the Code, providing for the regulation of nonemergency medical transportation. Section 4-44 of the Code provides the procedures to be followed by the County in processing certificate applications. Based upon those requirements, the Board may issue or refuse to issue the certificate as applied for, or may issue the certificate with modifications or upon such terms and conditions as in its judgment the public interest may require. In reaching a determination, the Board shall consider the application, the Mayor's recommendation, all matters presented during the public hearing, and among others, the following criteria:

- (1) The ability of the applicant to provide the proposed service;
- (2) The adequacy of the management plan of the applicant; and
- (3) The benefits that will accrue to the public interest from the proposed service.

Thrower Mobility Transportation Service Corp., located at 3038 NW 16 Street, Miami, Florida 33125, seeks to obtain three (3) Certificates of Public Convenience and Necessity to provide combination wheelchair and stretcher nonemergency medical transportation service to individuals requiring this type of transportation.

The applicant seeks to transport patients to and from various medical facilities throughout Miami-Dade County seven (7) days a week, 24 hours a day. Nonemergency transportation rates are not regulated by Miami-Dade County. However, under the Code, the Certificate Holder must file their rates with the Department of Regulatory and Economic Resources and post them within the passenger compartment section of each vehicle. The proposed rates are listed on the attached rate schedule. The vehicles operated under these certificates will be required to meet the requirements of Section 4-49 of the Code establishing vehicle inspection frequencies.

The management plan submitted by Mr. Albert W. Thrower, President of Thrower Mobility Transportation Service Corp., includes maintenance, communication, and recordkeeping systems and meets the requirements of the Code. All required financial statements and credit references have been submitted. The proposed service standards meet all requirements of the Code and adequately meet transportation and comfort needs. A background investigation reveals no criminal record within the last five years for the officer(s) of the corporation.

The proposed services to be provided under this certificate will increase the availability of licensed nonemergency medical transportation in Miami-Dade County, thus providing increased competition and high service standards to the public.
